

 explore beyond limits™ ACER INDIA PVT LTD	Information Security Management System (ISMS)	ISO/IEC 27001:2013
	Manual Annexure(s)	

Annexure-E ISMS Policy

Acer India Pvt. Ltd. (AIPL) is committed to implement an Information Security Management System (ISMS) to ensure information systems are appropriately protected from loss of confidentiality, integrity, availability, authenticity, accountability, non-reputation and reliability.

AIPL has adopted an Information Security Management System (ISMS) comprising of the Information Security Policies, Procedures and Processes to effectively protect data/information of AIPL and its customers from information security threats, whether internal or external, deliberate or accidental. ISMS in AIPL is aligned to the requirements of ISO/IEC 27001:2013.

AIPL is committed to ensure:

- Protection of sensitive information (however stored) against unauthorized access and maintain confidentiality;
- Maintenance of the integrity of all information;
- Expectations and requirements of all interested parties, in relation to information Security, are met;
- Meet all legal, regulatory, contractual and other requirements;
- Development of business continuity plans for business activities that are regularly maintained and tested;
- All breaches of information security, actual or suspected, will be reported to and investigated by AIPL and opportunities for improvement will be identified and acted upon.
- Compliance with the requirements of ISO/IEC 27001 for information security;
- Communication of this policy statement to the public, through our website and on request;
- Information availability to authorized business processes and employees when required; and
- Information security training to all the personnel

The policy is dynamic and includes a commitment to continual improvement through a process of incident reporting, risk assessment and regular audits. It complements the established ISO 9001 and ISO 14001 Management Systems and provides a framework for establishing and reviewing information security objectives
